DESCRIPTION

The guide from Byyou will meet you at your hotel in Barcelona, and take you to the Empordà Wine Region. This intriguing wine region, with history dating back to time when the Greeks and Romans settled here, is universally renowned by the genius Salvador Dalí. You enjoy a guided visit at this Museum dedicated entirely to the painter Salvador Dalí.

We will visit a cellar producing exquisite organic wines. You will enjoy the breath-taking views from the vineyards over the Mediterranean Sea, and the end result as it's pored into your glass during the tasting. The visit to the Cellar will be followed for a special tasting menu of local products at the same cellar.

Before return to Barcelona we'll have a superb guided visit to one of the centenary vineyard in the Empordà, where the history of winemakers started in the roman period. We'll enjoy an excellent wine tasting in the vineyard with an unparalleled Family Wine Museum.
